

MLWS Spring Sale

MLWS has been planning a Fiber Equipment Garage Sale for a couple of years. We have scheduled our sale for April 2, 2022 and we HOPE that this time it will occur!

Major equipment which is going to be sold is being offered to guild members before being part of the public sale.

Following is information about the equipment which is being offered under the following rules.

- each item has a list price which is the lowest price we will sell for
- we will accept bids at or above the asking price until 2/13/22 when the item will be listed for the public sale or sold to the highest guild bidder
- ONLY MLWS members are eligible to participate in this pre-sale bidding
- MLWS members may view the items at the weaving studio at Nancy Horne's house
- each loom comes with a bench and a reed, chosen from the ones available at the time of sale
- all sales are final and looms must be out of studio 2/28/22

We do not warranty any of the looms or equipment. Most of the equipment has been in regular use and has been maintained by Gilmore looms as needed. We have attempted to describe any obvious faults that we can see.

Loom Number 1 \$400

32" Loom - Bob Allen says this is not a Gilmore...but a pretty good looking knockoff

4 shaft, 6 treadles

Flat steel heddles

This loom needs work. The back beam is crooked.

This loom has been altered to have a lease stick holding device built in

Loom Number 2 \$500

46" Gilmore Loom

4 shaft, **10** treadles

Flat steel heddles

Loom
Number 3

\$ 300

40" X-frame Gilmore Loom

4s shaft, 6 treadles

Flat steel heddles

This is an older loom in pretty rough condition. It will need work!

However, in talking to Bob Allen, this may be very fixable and they are quite sought after.

Loom Number 4 \$400

32" Gilmore Loom

4 shaft, 6 treadles

Flat steel heddles

This loom has been altered to have a lease stick holding device built in

Loom Number 5 \$400

32" Gilmore Loom

4 shaft, 6 treadles

Flat steel heddles

Loom number 6 \$1000

46" Gilmore Loom

8 shaft, 12 treadles

Flat steel heddles

This loom is a BEAST! And in almost new condition. It was procured from a woman who had not really used it and has been in our studio since then with minimal use.

Reeds

46" X 5" Clean
6, 8, 12 Clean

36" X 4.75"
8, 8, 10 Clean copper

32" X 5"
